Early Childhood Education

Early childhood education should be developmental. Developmental education means providing a safe, nurturing environment where learning can take place as a result of the child's own curiosity. We want to stimulate this curiosity and then facilitate finding answers. Our dedicated teachers are available to help, motivate and encourage learning by discovery through experimentation with all toys, equipment and materials.

Our School Staff

Our staff is composed of professionals trained in Early Childhood Education. Each teacher is experienced in working with young children and meets or exceeds the guidelines of the Department of Social Services and the State of California

Worship Experience

Firsthand worship experience is provided through Bible stories, songs and prayers as the children participate in an age-appropriate monthly Chapel service. In addition to Chapel, a daily Bible lesson occurs in the classroom at circle time.

God's Unique Creation

Every child is God's unique creation and is growing at their own rate. Our curriculum is flexible to accommodate the individual differences of each child.
